R. L. & P. company. It is said that the company is considering favorably the proposed extension.

The famine of gas, which swept down on many Salem homes last week, came to an end Monday, when officials of the gas furnishing company commenced to open up the mains. The gas was shut off from homes where other means of heating and lighting were had to prevent what threatened to be an acute shortage of gas in Salem. The shutting off of the gas enabled the tanks to refill, and now, officials claim, this inconvenience will be taken care of. Some 200 homes in the city were denied gas during the shortage.

### NEW SAVINGS CERTIFICATES BABY BONDS

The new Treasury certificates of \$100 and \$1000 denominations are like "Baby Bonds." Here are the chief facts about them:

They are tax free, except inheritance, surtaxes, war profits and excess profits taxes.

They bear 4 per cent interest, compounded quarterly.

They mature January 1, 1924.

They may be cashed at the option of the holder for purchase price plus accrued interest any time before maturity date.

They never depreciate in value, but increase monthly, guaranteed by U. S. Government.

They are registered in Washington, which prevents loss by fire or theft. Each bears inscribed thereon the name of purchaser.

Certificates are issued in book form, each book containing ten certificates.

The \$100 certificate costs the same as twenty War Savings Stamps. The \$1000 certificate costs the same as 200 War Savings Stamps.

\$100 certificates can be obtained at any post office.

Both \$100 and \$1000 certificates may be obtained at banks.

\$100 certificates increase 20 cents and the \$1000 certificates two dollars a month in price.

The cost by months is as follows:

Month	\$100 Certificate	\$1000 Certificate
September	\$84.00	\$840.00
October	\$84.20	\$842.00
November	\$84.40	\$844.00
December	\$84.60	\$846.00

### THE ECONOMIST'S VIEW

"Perhaps at no other time in this nation's history is the appeal 'Work and Save' as necessary as at present. Manufacturers, financiers, economists and many others including even the more conservative labor leaders, realize that unless we work and work hard, and save and save hard, we are headed for a period of unprecedented hardship. This is not the mere mouthing of a jingo or professional pessimist. It is a fact, and is supported by innumerable signs everywhere. Every hour wasted and every dollar spent needlessly is like a small dagger thrust at the heart of this country. Enough of these dagger thrusts will finally reach the heart itself. The fact that we are extraordinarily rich furnishes no immunity from ultimate disaster if we waste these riches. The thing to do is for each and every one of us to pull in the same direction, towards national economy. Without it we are lost. With it, we can insure our national future." "Odd Lot Review."

National economy is only collective personal economy. Quit buying and sink your dollars in government securities such as Thrift and War Savings Stamps and Treasury Savings Certificates.

### WAR-TIME THRIFT AND PEACE-TIME SAVING

"Either the people as a whole must finance the government, either through taxation or bond purchase, or the government must borrow from individuals, from banks, or from corporations of large fortunes. If it does the latter, these interests hold exactly the same relation to the government that the holder of a first mortgage does to the owner of the property and the payer of the interest. If, on the other hand, the debt is divided between millions of citizens who are the government, the relationship is as different as is a cooperative society from a Urahah Heep." —William Gibbs McAdoo, in Pictorial Review.

The United States needs the money you invest in War Savings Stamps. Buy them every week. They bring 4 per cent interest compounded every three months. They give you a share in the government of the United States, Un-Ltd.—meaning unlimited.

Snails have remarkable vitality. A naturalist once revived some specimens after they had apparently been dead for fifteen years, and one that had been glued to a card in a museum returned to life after being immersed in warm water.
