

MORATORIUM ACT OF 1917 IS SUSTAINED BY SUPREME COURT

Declaring that "it is difficult to conceive of a federal act possessing superiority to state legislation upon the subject of remedies and procedure in state courts," the Oregon supreme court this morning, in an opinion written by Justice Benson, upholds the validity of the moratorium act of 1917. The opinion is based upon the case of Eugene Bierard and Pauline Bierard, his wife, vs. Eugene Hoch, appellant, and J. C. Guyer, and the decision of Judge G. W. Stapleton of the Multnomah county superior court, who had found for the plaintiff in the case, and reversed the case demanded for new trial. The Bierards had sold property to Hoch who had given a mortgage in the sum of \$20,000. Hoch in turn sold the property to Guyer who was at the time serving in the United States army. In filing suit to foreclose the mortgage the Bierards urged that the effect of the state act had been nullified by the federal act known as the soldiers' and sailors' federal relief bill, further alleging that the state act was unconstitutional in that it impaired the obligation of a contract. The lower court upheld the contention of the plaintiffs and ordered the mortgage foreclosed. The defendants in appealing the case had based their plea upon the state act which the supreme court has upheld in reversing the decision of Judge Stapleton. Other opinions were handed down by the court as follows: Theodore Neuman, appellant, vs. Al King, appeal from Linn county. Petition to dismiss appeal overruled. Opinion by Chief Justice McBride. Frances McKissick vs. Stewart McKissick, appellant, appeal from Multnomah county; application for modification of divorce decree. Opinion by Justice Burnett. Judge Robert G. Morrow affirmed. Ladd & Tilton Bank vs. Hattie Mitchell and McKinley Mitchell, appellants; et al; appeal from Multnomah county. Suit to foreclose mortgage. Opinion by Justice Dean. Judge George W. Stapleton affirmed. Farmers & Fruit Growers Bank, appellant, vs. P. Roy Davis, appeal from Jackson county; action for possession of bond. Opinion by Justice Dean. Judge P. M. Calkins reversed. Petitions for rehearing denied in Portland vs. Traynor and Portland vs. Kitchen and in cases Robinson vs. Phlegley motion to recall mandate denied.

INCORPORATIONS.

The Laurelhurst Pharmacy of Portland, capitalized at \$5000, filed articles of incorporation with Corporation Commissioner Schulerman, Tuesday. The incorporators are Richard Neubauer, Austin Stavner, Nellie E. Neubauer and Elsie Stayer. Articles were also filed by the Marion V. Briquet company, of Portland, capitalized at \$2500. Ralph Marion, J. C. DePanning and Russell F. Sewall are the incorporators. Resolutions of dissolution were filed by the Medford Aircraft Corporation.

CONTROL BOARD VETOES MILLION SALE OF BONDS

The state board of control at a special session Tuesday afternoon, refused to accede to the request of the state highway commission for the issuance of another \$1,000,000 worth of bonds under the Bean-Barrett act of 1917. The board gave as its reason for this action the fact that the act specifically provides for the issuance of \$1,800,000 in bonds, of which \$1,200,000 already have been issued, the requested issue exceeding by \$400,000 the balance remaining under the authorization of the act. It is expected that the highway commission will take mandamus proceedings to compel the board of control to accede to the request, on the ground that it was the intention of the legislature framing the act to meet the government appropriations, which have been largely increased by an amended act since the passage of the Bean-Barrett act. The highway commission contends that the state has full authority to meet the government appropriation up to the extent of its 2 per cent taxation limitation. This limitation, it is estimated, will provide an aggregate of \$20,000,000. A total of \$17,800,000 already has been specifically authorized by various acts of the state legislature, leaving a margin of \$2,200,000 which the highway commission contends is still available for use under the Bean-Barrett act.

SHIPPERS TAXED FOR DELAYED UNLOADING

In order to assist in securing the more prompt release of badly needed equipment the United States customs administration has put into effect an additional demurrage emergency charge under the present emergency act, copies of which have just been received by the Oregon Public Service Commission. The new order affixes a charge of \$10 per day, in addition to the regular demurrage charge, on refrigerator cars which are not unloaded at the expiration of five days after the free time begins to run under the demurrage rules. On cars loaded with lumber held for reassignment a storage charge of \$10 per car will be assessed for each day the car is held for reassignment after 48 hours after the hour at which free time begins to run. An increase of more than 25 per cent in the movement of refrigerator cars in excess of the number moved last year is noted by the railroad administration, according to a letter accompanying the notice of the new schedule of demurrage charges, his accounting, in large measure for the shortage in refrigerator cars at this time.

LAST OF CONTRACTS LET NOVEMBER 4

Picking up the tag ends of the year's work the state highway commission will practically conclude its 1919 program at its next session in Portland on November 4, when it will open bids on contracts involving the improvement of 50 miles of state highway in Linn county and 24 miles in Deschutes county. Advance notices now being sent to contractors outline the projects involved as follows: Klamath County—Algoma section, 2.9 miles grading and macadam; Klamath Falls-Dunsmuir section, 13.9 miles grading and macadam; Klamath Falls-Merrill section, 14.7 miles grading and graveling; Merrill-California line section, 12.8 miles grading and macadam. Deschutes County—Bond-Jefferson county line section, The Dalles-California highway, 23.9 miles of grading.

March May Not Be Given Permanent Recognition

Washington, Oct. 15.—Another step to give permanent recognition to Chief of Staff March was made today when General Wadsworth, of the senate military affairs committee, introduced a bill to give three lieutenant generals. These ranks would be filled, according to the terms of the bill but one officer who has served with distinction in the United States during the war and by two who led armies in the field with distinction. General March and Major General Bullard and Liggett are said to be in mind by the war department which introduced the bill. Fire at Dufur Sunday destroyed the Erickson Mercantile company's general store, entailing a loss of \$25,000.

When You Wake Up Drink Glass of Hot Water

Wash poisons and toxins from system before putting food into stomach. Wash yourself on the inside before breakfast like you do on the outside. This is vastly more important because the skin pores do not absorb impurities into the blood, causing illness, while the bowel pores do. For every ounce of food taken into the stomach, nearly an ounce of waste material must be carried out of the body. If this waste is not eliminated day by day it quickly ferments and generates poisons, gases and toxins which are absorbed or sucked into the blood stream, through the lymph ducts which should suck only nourishment. A splendid health measure is to drink, before breakfast each day, a glass of hot water with a teaspoonful of limestone phosphate in it, which is a harmless way to wash these poisons from the stomach, liver, kidneys and bowels; thus cleansing, sweetening and freshening the alimentary canal before eating more food. A quarter pound of limestone phosphate costs but very little at the drug store, but is sufficient to make anyone an enthusiast on inside bathing. (Adv.)
