Seattle, Wash., Oct. 17.—Seattle police today attempted to trace down the maker of a crude bomb placed on the back porch of the home of Mrs. Elizabeth Perry, wealthy pioneer, in Tenth avenue north, Thursday night. Detectives have concluded that a terrorist made the bomb, and that the plan to blow up the home was frustrated by Pierre P. Ferry, Mrs. Perry's brother, when he cut a string attached to the bomb spring.

A note demanding \$2000 was lying with the bomb and an empty salt sack on the porch when the doorbell rang. The note demanded that \$2000 be immediately placed in the sack.

CONCERTED EXHIBIT OF BACKBONE URGED TO REDUCE H. C. OF L.

New York, Oct. 17.—(United Press)—Concerted and continued exhibit of "backbone" by consumers instead of passing responsibility to dealers is the only way to bring down living costs. This is the opinion of Mrs. Julian Heath, president of the National Housewives league. In an interview today, Mrs. Heath asserted that while Attorney General Palmer's statement that prices have decreased 25 percent since the government's war on soaring costs began is probably true so far as some foods are concerned, yet housewives have not noticed any appreciable reduction in prices from day to day. "I presume Mr. Palmer has correct figures," said Mrs. Heath, "but they are not borne out by facts. Fundamental necessities have not gone down, either foods nor clothing. "Sugar, flour, eggs and other staples are just as high, and in some instances higher, as they were before organized efforts were made to stop the rise. There has been no lowering effect felt by the housewife and the time has come when she is ready to assert the necessary backbone by cutting down consumption and instituting an effective boycott of necessities."
