Dost regall the wild commotion of notion that the profiteers would go

We resolved to prosecute them and to poison them and shoot them, and to treat 'em rough and boot them; where's that movement, do you know? Where are now the learned attorneys whom we often used to meet, as they made their frantic journeys to the court house and repeat? How they used to roar and thunder, how they'd stamp the price hogs under, and de-prive them of their plunder, in the name of Mike and Pete! Are the prof-Iteers in prison, where we said we'd put them all? Is the boarder getting his'n, dragging round a chain and Is the market's greedy ruler resting in the moldy cooler, or is Justice but a drooler, with its picture to the wall? I am shelling out my dol-lars to the spulless profiteers; I am overcharged for collars and for we ding for my ears; I am overcharged for sweaters and for ink to write m letters, and no buccaneer in fetters to my wistful gaze appears.

ARMY AUTOCRACY.

TO BETTER work has been done by Senator Chamberlain than his exposure of the inhumanity and autocracy ruling the United States army. The cruelty to prisoners guilty of minor offenses, the favoritism shown of-fending officers, and the rigid rules of caste governing, show that Prussian ideals rather than American, rule the army. For months the senior Oregon senator has valiently contended for reform within the army.

That this un-American system is due directly to state are elligible for entrance into the Eases A Cold General March, is the charge made by Colonel James A. "We hear of 'democratizing' the army," writes Colonel Moss. "What we ought to do is to humanize the army. The twelve district winzers will meet During the war the fundamental basic mistake has been treating officers and men like so many 'numbers' entirely ignoring the human element. As a result there exists today a spirit of discontent and resentment that borders on bolshevism. The American people have no idea of the amount of discontent, dissatisfaction and unrest in the army, due to the high-handed, autocratic way in which the army has been administered, the pace having been set to brought here, and the plan proved so successful that it was decided to bring all twelve district winners here in future years.

PORTLAND'S CHANCE.

COMMENTING upon the Portland business men's excursion to southern Oregon, the Portland Telegram says: "The chief purpose is to convey to the people of the invaded sections an assurance of actual, practical help. It is incumbent upon Portland to give such assurance. " " " In the case of the construction of the Klamath Falls-Bend railroad, for example, there is a chance for an excellent beginning, but it demands cash rather than an uncertain interchange of pleasantries and vague promises."

This is the whole issue in a nutshell. Portland is long on talk but short in cash when it comes to developing the state. How Much Profit Do You Pay Us?

The United States Department of Agriculture informs us that you as an average American Citizen, eat about one hundred and eighty-two pounds of meat (181.83 lbs.) in a year.

Based on these figures, if you had purchased all of your meat foods from us, Swift & Company would have profited to the extent of 481/2 cents during the first eight months of our present fiscal year.

In that eight months we averaged to make twofifths of a cent on each pound of meat and all other products sold.

This profit you paid us equals 6 cents a monthor just about one street car fare.

More than 30,000 shareholders looking to us as trustees of their invested money, had to be paid a reasonable return out of your 6 cents a month. Volume alone made this possible.

Now figure for yourself how Government interference in the operations of the packing business is going to reduce your meat bill!
